

ABOUT ME

I am an architect with expertise in the design and execution of projects, where I emphasize quality and attention to detail. My experience enables me to efficiently manage projects under tight deadlines while fostering a collaborative and productive atmosphere.

With a creative and interdisciplinary approach, I am driven to expand my horizons beyond traditional architecture, exploring areas such as interior design, landscape and urban planning, as well as the creation of commercial experiences and scenographic spaces.

My goal is to contribute my skills and knowledge to an forward-thinking and dynamic professional setting, where I can continue to grow and help deliver innovative projects that address current challenges.
